TO OUR CUSTOMERS...

EXAMINE YOUR COLLARS AND CUFFS.

NOTICE the absence of former BRITTLENESS which caused the work *to break so readily.*

We have just put in, at a great expense, *a wonderful machine,* heated by steam - work only passing through the rollers once. The result: "Work is elastic, will not break and will last much longer than when ironed by *the old method*—heated by gas."

Bell Pianos

Are made to stand criticism.

PROF. J. B. LABELLE, *Organist Notre Dame Cathedral, Montreal,* says:

"I received the magnificent piano of the Bell Co. which I ordered for my own personal use. I had been expecting a first class instrument, but the piano, which is a veritable jewel, surpasses all my hopes It possesses a splendid quality of sound, rich, pure and melodious, with great evenness of the scale. The action is rapid, with great elasticity. I declare it an honor to Canada to possess a manufactory able to send out pianos like those of the Bell Co., which are unquestionably the best pianos made in Canada."

MADE AND GUARANTEED BY THE LARGEST MAKERS OF PIANOS IN CANADA.

DO YOUR EYES FLOW

Or do your eyes close when exposed to a bright light? Better let a refractionist, who is an expert, make an examination. He can tell you just what the trouble is, if there is a trouble. If you should wear glasses, the sooner you do so the better for your future health and peace of mind.
